

Check Point MCP on Microsoft Foundry

15 @chkp MCP servers · stdio children of the agent (no gateway) · Claude on Foundry or gpt-5-mini

CONSUMERS

chkpmcpaz CLI

local agent, streams in your terminal
Entra ID · runs the loop in-process
or calls the hosted agent →

Your app / SDK

OpenAI Responses client · Entra bearer

Teams · n8n · curl

bearer token over HTTPS → bridge

AZURE · MICROSOFT FOUNDRY (eastus2 · swedencentral)

FOUNDRY ACCOUNT · chkpmcp-foundry-{token}

Claude deployments

claude-sonnet-4-6 primary
claude-haiku-4-5 fallback
/anthropic · AnthropicFoundry · Entra

or

gpt-5-mini · cheap test

first-party Azure OpenAI
/openai · provider seam
the Azure analog of AWS Nova

AI Guardrail

Check Point · Lakera
or Prompt Shields
pre-model screen · optional

MICROSOFT FOUNDRY · HOSTED AGENT

Security-Ops Agent

hosted · chkpmcp-agent
Responses 2.0.0 · provider-agnostic loop
Claude or gpt-5-mini · prompt caching
token telemetry · also runs local

bridge · Azure Function

bearer token over HTTPS · clean JSON out

@chkp MCP servers · stdio · 9 default

quantum-management

threat-prevention

management-logs

documentation

+ 5 more · 15 total

Azure Key Vault

kv-chkpmcp-{token}
one secret per server
secret JSON → child env at spawn

Container Registry

chkp-agent:v1
az acr build · remote
digest-pinned image

Log Analytics + Application Insights

log-/appi-chkpmcp-{token}
OpenTelemetry traces · logs · KQL
from the hosted agent

CHECK POINT ESTATE
